for the

## Commercial Explosives Industry

### The Explosives Insurance Specialists

For drillers, blasters, distributors, and manufacturers in the mining, quarrying, and construction industries, there's no escaping the inherent risk of working with explosives every day. As a Nobel policyholder, you can rest easy knowing that your business is in experienced, capable hands with the commercial explosives insurance specialists. Since 1979, Nobel has been the insurer of choice for many of the most respected names in the U.S. commercial explosives marketplace.

### The Protection You Need

- **General Liability** covering exposures that may arise from business operations. Limits available up to \$1 million per occurrence, \$2 million annual aggregate.
- **Business Automobile** providing coverage in case of an accident, including:
  - Your liability for bodily injury or property damage resulting from accidents
  - Costs to defend your company against bodily injury and property damage allegations resulting from accidents involving company vehicles
  - Costs to repair company vehicles damaged in an accident
  - Limits available up to \$1 million Combined Single Limit (CSL) per occurrence
- **Excess Liability** is available on a following form basis for limits up to \$10 million per occurrence excess over a \$1 million primary, for a total up to \$11 million.

### Expertise You Can Count On

We've earned a stellar reputation for the quality, efficiency, and promptness of our claim handling. You can be assured that your explosives business will receive the personal attention it deserves when you need it most.

We also provide loss control services to policyholders at no additional cost. From evaluating exposures and current risk management efforts to providing actionable recommendations and educational information, our specialized services can help you enhance regulatory compliance efforts, mitigate risks, reduce loss costs, and keep business goals on track.
